OWN PRODUCTION

- 20+ years on the market
- own developments and patents
- ISO 9001 certification
- more than 400,000 lighting systems of our production operate worldwide

Products catalogue

MOBILE LIGHTING SYSTEM

Fuel consumption
1,2 L/hour

Illuminated area, m²
5 000

Built-in power plant
from 5 up to 16 kW

Mast type
mechanical, hydraulic

MOBILE LIGHTING SOLAR SYSTEM

**Environmentally friendly
power usage**

Illuminated area, m²
5 000

Light source life cycle(LED)
100 000 hours

Mast type
mechanical, pneumatic

MOBILE LIGHTING SYSTEM "LIGHT TOWER"

Illuminated area, m²
30 000

Installation height
Up to 9 m

Elimination
wide lighting angle

Easy operation

**Lifting the light source due to
fabric dome inflation**

LIGHTING SYSTEM "LIGHT TOWER"

Illuminated area, m²
15 000

Installation height
from 3 up to 7 m

**Lifting the light source due to
fabric dome inflation**

Basic operation
compact, fit in the trunk of a car

LIGHTING SYSTEM "LIGHT TOWER MINI"

Installation height
Up to 2 m

Lightweight construction
small dimensions, fits in car trunk

**Lifting the light source due to
fabric dome inflation**

Runs on battery

MOBILE LIGHTING COMPLEXES

Illuminated area, m²
10 000

Built-in generator
from 5 to 16 kW

Mast type
mechanical, hydraulic

Easy to transport

MOBILE LIGHTING COMPLEXES

Budget and functional settings

Basic operation

Various equipment available

Mast type
mechanical, pneumatic or telescopic

MOBILE LIGHTING SYSTEM “MINI”

Universal Assistant

Retractable mast length
Up to 5 m

Built-in generator
works autonomously and it is possible to connect additional equipment

Mast type
mechanical, pneumatic, telescopic

APPLICATIONS

We make the world brighter!
